## **School Day**

School begins at 7:50 AM. and ends at 4:00 P.M. Students will be dropped off from the buses beginning at 7:30 A.M. Suggested parent drop off time is 7:40 A.M., unless attending breakfast. All exterior doors will remain locked until 7:30 A.M. Students are expected to use crosswalks or be dropped off in front of the building on the east side. Building doors will be locked at 8:15 am and will remain locked until 3:45 pm. To gain access to the building during these times please press the button to the right of the door so that the secretaries may buzz you in.

## **Security**

A number one priority of the Ellicott School District is to ensure that our children and staff are safe. As a part of these measures, numerous video recording devices will be used to help monitor the grounds. Monthly drills will be performed as well, to help students and staff become more familiar with procedures for evacuation and sheltering in place, for possible circumstances that could arise. If you have concerns or questions about safety procedures, please do not hesitate to contact us.

## **After School Activities**

Students who remain at school, after school hours must have a district recognized sponsor to remain on school property. The only exception for being on school grounds outside the regular school day, is if students stay after school for school or community sponsored event, as an audience member or spectator. Loitering will not be tolerated.

## **Office Hours**

Secretaries will be available from 7:30 A.M. to 4:30 P.M. on student contact days, and will be available on Staff-in-Service days from 8:00 A.M. to 12:00 P.M.

## **Public Complaints about Personnel (Policy KE)**

The Board believes that complaints and grievances are best handled and resolved as close to their origin as possible. Therefore, the proper channeling of complaints involving instruction, discipline or learning materials will be as follows:

1. Teacher
2. Principal
3. Superintendent
4. Board of Education

## **Closed Campus**

All school campuses in Ellicott School District 22 are “Closed Campuses”. Students are restricted from leaving campus during the school day, including lunch time, without permission of both school administration and parents/guardians. Students are expected to be in designated supervised areas upon arrival.

**Compulsory Attendance-** In accordance with school law C.R.S. 22-33-104 and ESD22 Policy JEA. Every child who has attained the age of six years and is under the age of 17 is required to attend public school with such exceptions as provided by law. Excessive unexcused absences will result in an attendance plan/contract between the school, parents, and student. Court proceedings may occur if the issue is not corrected.

According to state law, it is the obligation of every parent to ensure that every child under his/her care receive adequate education and training and if the child is of compulsory attendance age, attends school. Secondary students must attend school for 1,056 hours each year. Elementary students must attend school for 968 hours each year.

## **Absence (ESD Policy JH)**

When a student will be absent from school, parents/guardians are asked to call the school office between 7:30AM and 10:00AM to report the absence and provide justification for the absence. If notification is not received by 10:00AM, school officials will attempt to contact parents through infinite campus, to verify the absence and reason. If no contact is made, a written statement containing the reason for the absence that is signed by a parent/guardian will be required in order for the absence to be considered excused.

According to Colorado law and District Policy JH, a student absence shall be excused only under the following circumstances:

- Temporary illness or injury;
- Prearranged absence approved by the building administration for appointments or other circumstances of a serious nature that cannot be taken care of outside of school hours;
- Extended physical, mental, or emotional disability;
- Current custody of law-enforcement or the court;
- Expulsion or suspension;
- Participation in a nonpublic home-based educational program providing notification to the district;
- Pursuit of a work-study program under supervision of the school; or
- Attendance at a school-sponsored activity or activity of an educational nature with advance approval of the building administration.

Furthermore, Ellicott School District officials consider timely notification of family emergencies to be a legitimate excuse for student absence.

If a student misses 5 or more days in a semester they may be required to make up the time that was missed and to take advantage of the opportunity to make any work that was missed.

### **Tardiness**

Tardiness is defined as the failure of a student to be in the proper place at a designated time. As a general rule, being on time to class means, being in the assigned class, in the appropriate seat, and with materials ready to participate. Tardiness is defined as the failure of a student to be in the proper place at a designated time. As a general rule, being on time to class means, being in the assigned class, in the appropriate seat, and with materials ready to participate. Due to the disruptive nature of tardiness, students will be assigned consequences for excessive tardiness that will be given on a quarterly basis as follows:

1. First and Second Tardy - student will report directly to the classroom teacher and will receive a verbal warning.
2. Third Tardy - warning by the dean of students/principal and a formal conference.
3. Fourth Tardy - lunch detention
4. Fifth Tardy - lunch & recess detention
5. Sixth Tardy and beyond - after school detention to make up lost class time; behavior plan and meeting with parent/principal

NOTE: If a student has a tardy that exceeds 20% of the established class period, it may be considered truancy.

### **Truancy**

If a student is absent without parental permission, or if a student leaves school or a class without permission of a teacher and/or administrator, the student shall be considered truant. The definition for truancy pertains to *each* full or partial day that a student is absent without an excuse for all enrolled K-12 public school students. All trancies shall be considered unexcused absences and are subject to disciplinary action.

The maximum number of unexcused absences a student may incur before judicial proceedings are initiated to enforce compulsory attendance is 10 days during any calendar year or school year.

### **Steps of Declaration of “Habitually Truant” Students**

1. School officials will attempt to make contact by 10 AM.
2. 4 Unexcused absences will result in a written notification of truancy to parent or guardian. If a student receives 4 unexcused absences in one month, the district will proceed to step 4.
3. If the student receives 5 unexcused absences the student will be assigned Friday School to make up the days.
4. 6 Unexcused absences will result in a meeting with parents or guardian to establish an attendance/behavior contract. Notification to School Resource Officer, Department of Human Services and/or other support agencies may be completed.
5. 8 Unexcused absences will result in a meeting with parents or guardian, school administration, and the school resource officer, to review the attendance/behavior contract, and inform all parties of future consequences for continued absence. A Notice of Noncompliance will be issued on behalf of the district by legal counsel.
6. 10 Unexcused absences may result in judicial proceedings being initiated.

### **Attendance/Loss of Credit**

Research shows there is a direct correlation between student attendance with higher academic achievement and reduction of at-risk behaviors. For this reason, Ellicott Middle School requires all students to be in attendance a minimum of 90% of a course to receive credit. Any student who does not meet this requirement will not receive academic credit for the course. This could lead to retention of the student in the same grade.

**Appeals can be made to the principal and superintendent of schools. Documentation must be submitted to verify extenuating circumstances relating to absences.**

### **Make-up Work**

Make-up work shall be provided for any class in which a student has an excused absence. Students will be allowed a due-date extension of one extra day for each day of absence. For extended absences, make up work will be handled on a case-by-case basis. All make up work is given with the goal of providing the student an opportunity to keep up with academic requirements with no consequence to the student's grade. Per policy, unexcused absences can be made up however point deductions are enforced.

### **Withdrawal and Transfer**

Parents are asked to come to school and formally check out students if they will no longer be attending the Ellicott Schools. A written form must be completed and signed by a parent or guardian. Parents will be asked to provide a forwarding address and, if known, the name and address of the new school of attendance. All fees and bills owed by the student must be paid before withdrawal is official.

### **Inter-District Choice/Open Enrollment (Policy reference JFBB)**

In providing for admission of nonresident students, the school district shall not:

1. Make alterations in the structure of the requested school or to the arrangement or function of rooms within a requested school to accommodate the enrollment request.
2. Establish and offer any particular program in a school if such program is not currently offered in such school.
3. Alter or waive any established eligibility criteria for participation in a particular program, including age requirements, course prerequisites and required levels of performance.
4. Enroll any nonresident student in any program or school after October 1.

### **Telephone Use:**

Students will be allowed to use the phone on emergency basis. We highly encourage students to plan ahead. Students are not to use the teacher's classroom phone, without permission from staff. If a student needs to make a call on his/her personal cell phone, the student will bring the cell phone to the office to make that call.

## **School Visitations**

Parents are encouraged and always welcome to visit classroom within the Ellicott Schools. With our greater safety concerns, we ask all visitors to make previous arrangements to visit the school. Twenty - four hour notice is appreciated. Parents and all visitors are required to check in at the school office upon arrival to receive a “**visitor’s pass**”. You may call the front office or e-mail your child’s teacher directly to set up a visit or time to speak with the teacher.

Unannounced, drop-in visits tend to be disruptive – especially before or immediately after school. The teachers may not be able to speak to you as teaching and supervision is their first priority. If you plan to pick up your child early; please let your teacher know in advance so all assignments/paperwork can be collected early to reduce the number of distractions in the classroom.

## **Volunteers in School**

Volunteers are welcome in the Ellicott Schools. Volunteers shall be subject to background checks in accordance with policy GBED. Volunteers who have not had a background check will not be permitted alone with students. Also volunteers will ensure that the student’s privacy is protected in regards to academic, physical and/or emotional needs.

## **School Closure**

On days of threatening weather, school district officials will attempt to make a decision on delayed start or school cancellation by 6:00am. Each fall, the district will distribute to parents a list of media outlets which will be contacted to broadcast the delay or closure. Additionally, parents can log on to [www.rockyinfo.net](http://www.rockyinfo.net) or the Ellicott School District web site, [www.ellicottschools.org](http://www.ellicottschools.org) to review closure information or can call the district’s main telephone number (683-2700) to hear a recorded message in the event of school closure. Also parents and families will be notified by the School’s All Call System by telephone and email. Please make sure to notify the school of any updates to phone numbers or contact information as this is vital in maintaining effective communication.

**Parents/guardians are asked to inform their children and their school of special arrangements in the case of early school dismissal. Phones will typically be unavailable for all students, so families are urged to plan ahead and be prepared for this possibility.**

## **Immunization**

The Colorado Department of Health specifies that all school children must meet immunization requirements for admission to public schools. No application for admission shall be complete without an up-to-date certificate of immunization. Students new to the Ellicott School district have up to 60 days from the date of admission to comply with all immunization requirements or their continued enrollment may be denied. Parents or eligible students may file for an exemption of immunization requirements or their continued enrollment may be denied. Parents or eligible students may file for an exemption of immunization requirements based on religious, medical, or personal exception. All questions regarding student immunization should be directed to the school district nurse through any school office.

## **Food Allergies (Policy Reference JLCDA - Students with Food Allergies)**

In order to meet state law requirements Ellicott School District has adopted a Food Allergy Policy to address the issue of life-threatening food allergies. You will need to have the *Allergy & Anaphylaxis Action Plan* form for you and your child’s physician to complete if your child is diagnosed with a potentially life-threatening allergy. It is recommended that parents provide the school nurse with a supply of the student’s medication to be kept at school for an emergency.

If your child's physician recommends that your child carry their emergency medication, you and your child will need to complete one additional contract form (available in the school office or from the school nurse). The school nurse and administrator of the school will then evaluate your child's ability to carry their medication safely. Medication must be provided in a properly labeled pharmacy container that would include: name, drug, dose, instructions for administration.

### **Animals at School**

Due to the large number of students with allergies; we ask that no one bring any animal into the school building without prior approval from school administration.

### **First Aid/Medical Treatment**

No treatment of injuries except basic first aid will be administered at school. First aid shall be considered the immediate help given by the best-qualified person at hand in case of an accident or sudden illness.

Please complete and keep up to date all emergency information requested in the colored form packet so that in the event of an emergency, school officials can make contact as you indicate. If contact cannot be made, the student may be transported to the nearest medical facility if, in the opinion of school personnel, the situation warrants such. The Ellicott School District will not be responsible for any costs related to transporting (including ambulance) and/or treatment of sick or injured students.

### **School Administered Medications**

The Colorado Department of Public Health and Environment recommends that every possible means be taken to give children medication or medical treatments at home. If it becomes necessary for a student to take any form of medication or treatments including over the counter medicines or homeopathic preparations at school, the following must be in place.

Without these six requirements, medication or medical treatments cannot be administered at school.

1. Written authorization from a physician for the school stating the student's name, required treatment or medication, possible side effects, dosage, time to be given, and for how many days.
2. Properly identified medication in its original pharmacy labeled container. Medications must be in the form it is to be administered; the school cannot mix or divide medications.
3. Written permission by the parent/guardian giving school officials authorization to administer the medication or medical treatment as prescribed by the physician.
4. Documentation in a medication log noting when the medication or treatment was given and by whom. The log is a permanent student record.
5. Medication, in its original pharmacy container, will be stored in a clean, locked cabinet or drawer. Only authorized persons will have access to the secured cabinet.
6. Availability of delegated personnel whom the school registered nurse has trained and delegated the task of giving medication or medical treatments and continues to supervise.

### **Policy Section JLCG Passive Consent for Medicaid Billing**

As a Medicaid provider, the Ellicott School District will access Medicaid eligibility information for students enrolled in the district from Health Care Policy and Financing (HCPF), the designated Medicaid agency in Colorado. Directory information of name, date of birth, and gender will be released to HCPF to verify Medicaid eligibility of students in the district. With consent, the description of health and health-related services delivered to Medicaid eligible students and such information needed to complete claims will be released to Medicaid and/or the district billing agent for proper administration of the program. A dated record of all transactions will be kept on file at the Pikes Peak BOCES office.

Any parent/guardian or eligible student (18 years of age or older) who does not want to participate in the Medicaid program must notify the school in writing. Unless notified, the district may begin billing within two weeks of enrollment. Parents/guardians or eligible students may at any time complete a refusal form. Medicaid refusal forms may be obtained at each school office.

### **Accident Insurance**

Accident insurance is available to all students. Application packets are available in the school office. This insurance program is optional and provided by the school district as a courtesy to parents who may wish to take advantage of this coverage. The Ellicott School District does not endorse or promote this program in any way.

### **Infinite Campus Parent Portal**

Parents will be able to access student grades and attendance through the Infinite Campus Parent Portal connection. Parents can also directly e-mail teachers through the system. Information will be updated weekly. If you lost your information from last year or are new to Ellicott, please contact the school's Main Office for assistance.

### **ID Cards (Student Identification Cards)**

Students will be issued ID cards at the beginning of the school year. Students are encouraged to wear their ID's, so that they are visible at all times. A lost ID card may be replaced through the front office for a \$5.00 fee.

### **Student 1:1 devices & Hall Passes**

Student devices will be distributed to students at the beginning of the school year. Students will utilize the organizational app (Schoology) every day, for every class. Since the middle school uses the devices much like a textbook/notebook and for curriculum purposes, the students are required to have their device every day in class. If there is a concern with your child and the device use, please contact administration as there are a number of options with the amount of access the students receive.

Hall passes will be used when students are in the hallways during class, unless accompanied by school personnel.

### **Personal Property**

The school district is not responsible for loss, theft, or damage to student's personal property at school. ### **Lockers**

Lockers are issued to all students at Ellicott Middle School. Students are assigned one locker and are expected not to share the combination with any other student. Students may not change lockers or move into a friend's locker. Students are also urged to not keep valuable possessions or money in their lockers because of possible theft. Students are responsible for the condition of their lockers and are expected to keep their lockers neat and clean at all times. Messy or overloaded lockers will cause the locker to jam closed. Note: Backpacks, duffel bags and purses are not to be taken into the classroom. These items are to be left in lockers. All students will be assigned a locker with a combination lock built in.

*Athletes and Physical Education students*-Lockers will be assigned to athletes for the season in which they are participating in. PE Students will have lockers provided to them for the period that they have PE. All personal items are expected to be secured and stowed in lockers.

**Ellicott Middle School is not responsible for lost, stolen, or damaged items taken from a locker.** School officials will conduct a reasonable investigation into timely reported stolen items. School officials shall have access to and may conduct a search and inspection of any student locker at any time since lockers are the property of the school district.

## **Internet Use Agreement- Policy Section JS (Technology/iPad)**

The Internet and electronic communications (e-mail, chat rooms and other forms of electronic communication) have vast potential to support curriculum and student learning. The Board of Education believes they should be used in schools as a learning resource to educate and to inform.

Use of the Internet and electronic communications require students to think critically, analyze information, write clearly, use problem-solving skills, and hone computer and research skills that employers demand. Use of these tools also encourages an attitude of lifelong learning and offers an opportunity for students to participate in distance learning activities, ask questions of and consult with experts, communicate with other students and individuals, and locate material to meet educational and personal information needs.

The Internet and electronic communications are fluid environments in which students may access materials and information from many sources, including some that may be harmful to students. While it is impossible to predict with certainty what information students might locate or come into contact with, the district shall take reasonable steps to protect students from accessing material and information that is obscene, child pornography or otherwise harmful to minors, as defined by the Board. Students shall take responsibility for their own use of district computers and computer systems to avoid contact with material or information that may be harmful to minors.

### **Blocking or filtering obscene, pornographic and harmful information**

Software that blocks or filters material and information that is obscene, child pornography or otherwise harmful to minors, as defined by the Board, shall be installed on all district computers having Internet or electronic communications access. Students shall report access to material and information that is obscene, child pornography, harmful to minors or otherwise in violation of this policy to the supervising staff member. If a student becomes aware of other students accessing such material or information, he or she shall report it to the supervising staff member.

District computers, computer systems, and iPads are owned by the district and are intended for educational purposes at all times. Students shall have no expectation of privacy when using the Internet or electronic communications. The district reserves the right to monitor, inspect, copy, review and store (at any time and without prior notice) all usage of district electronic devices, including iPads, computers, computer systems, and will include all Internet and electronic communications access and transmission/receipt of materials and information. All material and information accessed/received through district computers and computer systems shall remain the property of the school district.

### **Unauthorized and unacceptable uses**

Students shall use district computers and computer systems in a responsible, efficient, ethical and legal manner.

Because technology and ways of using technology are constantly evolving, every unacceptable use of district computers, computer systems, and iPads cannot be specifically described in policy. Therefore, examples of unacceptable uses include, but are not limited to, the following.

*[Note: The Board has discretion to determine which uses are unacceptable.]*

Students should not demonstrate the problem to other users. Logging on to the Internet or electronic communications as a system administrator is prohibited.

Students shall not:

- use another person's password or any other identifier
- gain or attempt to gain unauthorized access to district computers or computer systems
- read, alter, delete or copy, or attempt to do so, electronic communications of other system users

Any user identified as a security risk, or as having a history of problems with other computer systems, may be denied access to the Internet and electronic communications.

## **Safety**

Students shall not reveal personal information, such as home address or phone number, while using the Internet or electronic communications. Without first obtaining permission of the supervising staff member, students shall not use their last name or any other information that might allow another person to locate him or her. Students shall not arrange face-to-face meetings with persons met on the Internet or through electronic communications.

## **Vandalism**

Vandalism will result in cancellation of privileges and may result in school disciplinary action, including suspension or expulsion, and/or legal action. Vandalism is defined as any malicious or intentional attempt to harm, destroy, modify, abuse or disrupt operation of any network within the school district or any

network connected to the Internet, operation of any form of electronic communications, the data contained on any network or electronic communications, the data of another user, usage by another user, or district-owned software or hardware. ### **Assigning student projects and monitoring student use**

The district will make reasonable efforts to see that the Internet and electronic communications are used responsibly by students. Administrators, teachers and staff have a professional responsibility to work together to monitor students' use of the Internet and electronic communications, help students develop the intellectual skills needed to discriminate among information sources, to identify information appropriate to their age and developmental levels, and to evaluate and use information to meet their educational goals. Students shall have specifically defined objectives and search strategies prior to accessing material and information on the Internet and through electronic communications.

Opportunities shall be made available for parents to observe student use of the Internet and electronic communications in schools.

All students shall be supervised by staff while using the Internet or electronic communications at a ratio of at least one staff member to each 30 students. Staff members assigned to supervise student use shall have received training in Internet and electronic communications safety and monitoring student use.

### **Student use is a privilege**

Use of the Internet and electronic communications demands personal responsibility and an understanding of the acceptable and unacceptable uses of such tools. Student use of the Internet and electronic communications is a privilege, not a right. Failure to follow the use procedures contained in this policy shall result in the loss of the privilege to use these tools and restitution for costs associated with damages, and may result in school disciplinary action, including suspension or expulsion, and/or legal action. The school district may deny, revoke or suspend access to district technology or close accounts at any time.

Students and parents/guardians shall be required to sign the district's Acceptable Use Agreement annually before Internet or electronic communications accounts shall be issued or access shall be allowed.

### **School district makes no warranties**

The school district makes no warranties of any kind, whether express or implied, related to the use of district computers, computer systems, and iPads, including access to the Internet and electronic communications services. Providing access to these services does not imply endorsement by the district of the content, nor does the district make any guarantee as to the accuracy or quality of information received. The district shall not be responsible for any damages, losses or costs a student suffers in using the Internet and electronic communications. This includes loss of data and service interruptions. Use of any information obtained via the Internet and electronic communications is at the student's own risk.

## **EDUCATIONAL PROGRAMS and SCHEDULES**

### **Equal Educational Opportunities**

Every student of the Ellicott School District shall have equal educational opportunities regardless of color, creed, sex, national origin, or disability. Further, no student shall on the basis of sex be excluded from participating in, be denied the benefits of, or be subject to discrimination under any educational program or activity conducted by the district. ### **Multi-Tiered Systems of Support (MTSS)**

Multi-Tiered Systems of Support is an approach that promotes a well-integrated system connecting general, compensatory, gifted, and special education in providing high quality, standards-based instruction and intervention that is matched to students' academic, social-emotional, and behavioral needs.

MTSS is a process which includes the provision of systematic, research-based instruction and interventions to struggling learners. It assumes that the instruction/interventions are matched to student needs and that the monitoring of progress is continuous. Furthermore, MTSS is designed as an early intervention to prevent long-term academic failure. As such MTSS can replace the I.Q. discrepancy model in the identification of learning disabilities. MTSS is considered a general education service. The overarching purpose of MTSS implementation is to improve educational outcomes for all students.

### **Individual Class Schedule Changes**

Ellicott School District 22 shall promote a healthy environment for students by providing education, support and decision making skills in regard to alcohol, drugs and other controlled substances and their abuse. In order to accomplish this goal, a cooperative effort must be made among the schools, parents/guardians, community and its agencies.

This policy shall be applied at the principal's discretion after consultation with the superintendent or designee as the need for it arises at individual school sites.

**Prevention education-**The Board realizes that many students become involved in gangs without understanding the consequences of gang membership. Early intervention is a key component of efforts to

break the cycle of gang membership. Therefore gang violence prevention education in the schools shall start with students in third grade.

### **Dangerous Weapons in the School- Policy Section JICI**

The Board of Education determines that possession and/or use of a weapon by students is detrimental to the welfare and safety of the students and school personnel within the district.

### **Mandatory expulsion in accordance with state and federal law**

Carrying, bringing, using or possessing a dangerous weapon on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event, and off school property when the conduct has a reasonable connection to school or any district curricular or non-curricular event without the authorization of the school or the school district is prohibited. An exception to this policy may be made for students participating in an authorized extracurricular activity or team involving the use of firearms.

As used in this policy, “dangerous weapon” means:

- a. A firearm, whether loaded or unloaded.
- b. Any pellet, BB gun or other device, whether operational or not, designed to propel projectiles by spring action or compressed air.
- c. A fixed blade knife with a blade that measures longer than three inches in length or a spring loaded knife or a pocket knife with a blade longer than three and one-half inches.
- d. Any object, device, instrument, material, or substance, whether animate or inanimate, used or intended to be used to inflict death or serious bodily injury including, but not limited to slingshot, bludgeon, brass knuckles or artificial knuckles of any kind.

The principal shall initiate expulsion proceedings for students who carry, bring, use or possess a dangerous weapon in violation of this policy. A student may, but need not be expelled, if as soon as possible upon discovering that he or she is in possession of the dangerous weapon, the student notifies and delivers the weapon to school officials.

In accordance with federal law, expulsion shall be for no less than one full calendar year for a student who is determined to have brought a firearm to school in violation of this policy. The superintendent may modify the length of this federal requirement for expulsion on a case-by-case basis.

### **Discretionary discipline in accordance with state law**

Carrying, using, actively displaying or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event, and off school property when such conduct has a reasonable connection to school or any district curricular or non-curricular event without the authorization of the school or school district is prohibited. Students who violate this policy provision may be subject to disciplinary action including but not limited to suspension and/or expulsion.

A student may seek prior authorization from the building principal to carry, bring, use or possess a firearm facsimile that could reasonably be mistaken for an actual firearm on school property for purposes of a school-related or non-school related activity. A student’s failure to obtain such prior authorization is

a violation of this policy provision and may result in disciplinary action, including but not limited to suspension and/or expulsion. The principal's decision to deny or permit a student to carry, bring, use or possess a firearm facsimile that could reasonably be mistaken for an actual firearm on school property shall be final.

School administrators shall consider violations of this policy provision on a case-by-case basis to determine whether suspension, expulsion or any other disciplinary action is appropriate based upon the individual facts and circumstances involved.

### **Local restrictions- In regards to weapons**

The Board of Education determines that extra precautions are important and necessary to provide for student safety. Therefore, the carrying, bringing, using or possessing of any *knife*, regardless of the length of the blade, on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event, and off school property when the conduct has a reasonable connection to school or any district curricular or non-curricular event without express authorization is prohibited. Students who violate this policy provision shall be referred for appropriate disciplinary proceedings.

The district shall maintain records which describe the circumstances involving expulsions of students who bring weapons to school including the name of the school, the number of students expelled and the types of weapons involved as required by law.

School personnel shall refer any student who brings a firearm or weapon to school without authorization of the school or the school district to law enforcement, as appropriate.

### **Interrogations and Searches- Policy JICDA**

The Board of Education seeks to maintain a climate in the schools which is conducive to learning and protective of the safety and welfare of staff and students. To achieve this goal, it may be necessary for school personnel or an agent of the school district to randomly search a student and/or the personal property of a student and to seize any property deemed injurious or detrimental to the safety and welfare of students and staff. These random searches may involve, but are not limited to, the use of canine detection terms and/or electronic devices.

Searches may also be conducted by a school official or an agent of the school district who has reasonable grounds for suspecting that a search will turn up evidence that the student has violated either the law or Board policy. When reasonable grounds for a search exist, school personnel or their agent may search a student and/or his property while on school premises or during a school activity under the circumstances outlined in this policy and may seize any illegal, dangerous, unauthorized or contraband materials.

Any search conducted by a school official shall attempt to respect the privacy of the student and not be any more intrusive than necessary, considering the age and sex of the student and nature of the suspected infraction. Searches shall also be conducted in such a manner as to provide the least amount of disruption to the educational environment as possible.

Whenever possible, the student shall be informed of the reason(s) for conducting the search and the student's permission to perform the search shall be requested. A student's failure to cooperate with school officials conducting a search shall be considered grounds for disciplinary action.

An administrative report shall be prepared by the school official conducting a search explaining the reasons for the search, the results and the names of any witnesses. If the search produces evidence to be used as the basis for disciplinary action, the report shall be filed in the student's cumulative folder.

## **Definitions**

1. "Random" is the term used for searches which are not directed toward specific students, but are proactive and preventative in nature and seek to provide periodic assurance that illegal, dangerous, unauthorized, or contraband materials are not present on school grounds, in school facilities, or in the possession of individuals at school. Students and parents/guardians shall be notified at the beginning of each school year that random searches as provided for in this policy, may be initiated at any time by the school administration.
2. "Reasonable suspicion" is the standard for a search on school property or at school activities carried out by school authorities. Reasonable suspicion should be based on facts provided by a reliable informant or personal observation which cause the school official to believe, based on his own experience, that search of a particular person, place or thing would lead to the discovery of evidence of a violation of Board policy or state laws. Reasonable suspicion requires more than a mere hunch.
3. "Contraband" consists of all substances or materials prohibited by Board policy or state law including but not limited to drugs, alcoholic beverages, guns, knives, other weapons or incendiary devices.

## **Search of School Property & iPads**

School lockers, desks, iPads and other storage areas are school property and remain at all times under the control of the school. School property provided for the use of students is subject to inspection, cleanouts, access for maintenance and search pursuant to this policy. Students shall assume full responsibility for the security of their lockers and/or other storage areas in the manner approved by the administration. Students shall be responsible for whatever is contained in desks and lockers assigned to them by the school. The principal or his designee may search a desk, locker or any other storage area and its contents when he has reasonable grounds for a search, i.e., reasonable suspicion. Whenever possible, another person shall be available to witness the search.

## **Search of the Student's Person**

The principal or his designee may search the person of a student if the school official has reasonable suspicion to believe that the student is in possession of contraband. Search of the person shall be limited to the student's pockets, any object in the student's possession such as a purse or backpack, or a "pat down" of the exterior of the student's clothing. Searches of the person shall be conducted out of the presence of other students and as privately as possible. At least one but not more than three additional persons of the same sex as the student shall witness but not participate in the search.

The parent or guardian of any student searched shall be notified of the search as soon as reasonably possible thereafter. Searches of the person which require removal of clothing other than a coat or jacket shall be referred to a law enforcement officer. No strip search shall be carried out by any school employee.

## **Law Enforcement Officers' Involvement**

The principal or his designee may request a search on school premises be conducted by a law enforcement officer. When law enforcement authorities are involved in the search, the search will be conducted under criminal law standards rather than under the provisions of this policy. When law enforcement officers respond to such a request, no school employee shall assist or otherwise participate in the search unless under the direct order of the law enforcement officer.

If law enforcement personnel seek permission from school authorities to search a student, his property or school property to obtain evidence related to criminal activities, school officials shall require the policy to produce a valid search warrant before the search is conducted unless:

1. There is un-coerced consent by the student.
2. There is probable cause and circumstances such that taking the time to obtain a search warrant would frustrate the purpose of the search.
3. The search is incident to an arrest and is limited to the person and his immediate surroundings.

When law enforcement officials request permission to question students when students are in school or participating in school activities on school grounds, the principal or his designee shall be present during the interrogation if requested by the student and if the principal or his designee is present at the time of the interrogation. If the student is under 18, the school shall make a reasonable attempt to contact his parent(s) or legal guardian prior to the interrogation beginning, unless the juvenile is emancipated as that term is defined in state law.

Every effort shall be made not to draw any attention to the student being questioned by conducting the interrogation in private and with as little disruption to the schedule as possible. When custody and/or arrest by the police is involved, the principal shall request that all procedural safeguards as prescribed by law be observed by the law enforcement officers. This includes all due process procedures including but not limited to obtaining proper arrest warrants where required.

### **Seizure of Items**

Anything found in the course of a search conducted by school officials which is evidence of a violation of law or Board policy or school rules or which by its presence presents an immediate danger of physical harm may be:

1. Seized and offered as evidence in any suspension or expulsion proceeding if it is tagged for identification at the time it is seized. Such material shall be kept in a secure place by the principal until it is presented at the hearing.
2. Returned to the student or his parent or guardian.
3. Turned over to any law enforcement officer in accordance with this policy.

### **Appeals**

Within 10 school days after a search by school officials, the student may appeal the search decision to the superintendent who shall investigate the reason(s) and circumstances of the search. The superintendent shall issue written findings within five school days after receiving the appeal. The superintendent's decision shall constitute the final district determination.

### **Use of Physical Intervention- Policy Section JKA**

In dealing with disruptive students, any person employed by the district may, within the scope of his/her employment, use reasonable and appropriate physical intervention or force as necessary for the following purposes:

1. To prevent a student from an act of wrong-doing.

3. To obtain possession of weapons or other dangerous objects upon a student or within the control of a student.
4. For the purpose of self-defense.
5. For the protection of persons or property.

6. To maintain discipline.

Any such acts are not in conflict with the legal definition of child abuse and shall not be construed to constitute corporal punishment within the meaning and intention of this policy. Under no circumstances shall a student be physically held for more than five minutes unless the provisions regarding restraint (contained in the regulation) are followed. Any method or device used to involuntarily limit a student's freedom of movement for more than five minutes, including physical force, mechanical restraint, physical restraint, chemical restraint or seclusion, shall be in compliance with state law on protecting persons from restraint. The superintendent shall develop procedures and a training program related to the use of restraint consistent with this policy and state law. Corporal punishment shall not be administered to students by anyone in any district school.

### **Sexual Harassment – Student- Policy Section JBB**

The Board recognizes that sexual harassment can interfere with a student's academic performance and emotional and physical well-being and that preventing and remedying sexual harassment in schools is essential to ensure a nondiscriminatory, safe environment in which students can learn. In addition, sexual harassment is recognized as a form of sex discrimination and thus is a violation of the laws that prohibit sex discrimination.

#### **District's commitment**

The district is committed to maintaining a learning environment that is free from sexual harassment. It shall be a violation of policy for any staff member to harass students or for students to harass other students through conduct or communications of a sexual nature or to retaliate against anyone that reports sexual harassment or participates in a harassment investigation.

The district shall investigate all indications, informal reports and formal grievances of sexual harassment by students, staff or third-parties and appropriate corrective action shall be taken. Corrective action includes taking all reasonable steps to end the harassment, to make the harassed student whole by restoring lost educational opportunities, to prevent harassment from recurring and to prevent retaliation against anyone who reports sexual harassment or participates in a harassment investigation.

#### **Sexual harassment prohibited**

Unwelcome sexual advances, requests for sexual favors, or other verbal, non-verbal or physical conduct of a sexual nature may constitute sexual harassment, even if the harasser and the student being harassed are the same sex and whether or not the student resists or submits to the harasser, when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a student's participation in an education program or activity.
2. Submission to or rejection of such conduct by a student is used as the basis for education decisions affecting the student.
3. Such conduct is sufficiently severe, persistent or pervasive such that it limits a student's ability to participate in or benefit from an education program or activity or it creates a hostile or abusive educational environment. For a one-time incident to rise to the level of harassment, it must be severe.

Any conduct of a sexual nature directed by a student toward a staff member or by a staff member to a student is presumed to be unwelcomed and shall constitute sexual harassment. Acts of verbal or physical aggression, intimidation or hostility based on sex, but not involving conduct of a sexual nature may also constitute sexual harassment.

Sexual harassment as defined above may include, but is not limited to:

1. sex-oriented verbal "kidding," abuse or harassment.
2. pressure for sexual activity.
3. repeated remarks to a person with sexual implications.
4. unwelcome touching, such as patting, pinching or constant brushing against the body of another.
5. suggesting or demanding sexual involvement, accompanied by implied or explicit threats concerning one's grades or similar personal concerns.

Legitimate non-sexual touching or other non-sexual conduct is not sexual harassment.

### **Reporting, investigation and sanctions**

Sexual harassment cannot be investigated or corrected by the district until the district is made aware of such harassment. Therefore, students are encouraged to report all incidences of sexual harassment to either a teacher, counselor or principal in their school building and file a formal grievance, through the complaint process (AC-R). All reports and indications from students, district employees and third parties shall be forwarded to the compliance officer, if the alleged harasser is the person designated as the compliance officer an alternative compliance officer will be appointed by the superintendent to investigate the matter.

All matters involving sexual harassment reports shall remain confidential to the extent possible as long as doing so does not preclude the district from responding effectively to the harassment or preventing future harassment. Filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual's status or affect grades.

In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred shall be investigated.

Any student found to have engaged in sexual harassment shall be subject to discipline, including, but not limited to, being placed under a remedial discipline plan, suspension or expulsion, subject to applicable procedural requirements and in accordance with applicable law. Conduct of a sexual nature directed toward students shall, in appropriate circumstances, be reported as child abuse for investigation by appropriate authorities in conformity with policy JLF.

### **Notice and training**

Notice of this policy shall be circulated to all district schools and departments and incorporated in all student handbooks. All students and district employees shall receive periodic training related to recognizing and preventing sexual harassment. District employees shall receive additional periodic training related to handling reports of sexual harassment.

### **Regulation Section JBB-R**

#### **Sexual Harassment – Student Regulation Section JBB-R (Grievance Procedure)**

1. Students who believe they have been subject to sexual harassment will report the incident in writing to their principal who will be referred to as the grievance officer. If the alleged harasser is the person designated as the grievance officer, an alternate grievance officer will be appointed by the superintendent to investigate the matter.
2. Upon receiving a report, the grievance officer will confer with the student who has allegedly been harassed as soon as is reasonably possible, but in no event more than 2 days from receiving the report, in order to obtain a clear understanding of the basis of the complaint and to discuss what action the

student is seeking. The student's parent/guardian will also be contacted and kept informed regarding progress of the investigation.

3. At the initial meeting with the student, the grievance officer will explain the avenues for informal and formal action and provide a description of the grievance procedure. The grievance officer will also explain that whether or not the student files a formal grievance or otherwise requests action, the district is required by law to take steps to correct the harassment and to prevent recurring harassment or retaliation against anyone who makes a harassment report or participated in the investigation. The grievance officer will also explain to the student that any request for confidentiality will be honored so long as doing so does not preclude the school from responding effectively to the harassment and preventing future harassment.
4. Following the initial meeting with the student, the grievance officer will attempt to meet with the alleged harasser and his/her parent/guardian in order to obtain a response to the reported harassment and will investigate the matter in accordance with Policy JBB. The grievance officer will complete the investigation within 14 days of the initial meeting with the student.
5. Within 7 days of completing the investigation, the grievance officer will determine whether the matter should proceed formally or informally. On the basis of the grievance officer's investigation and if the student requests that the matter be resolved in an informal manner and the grievance officer agrees that the matter is suitable for such resolution, the grievance officer may attempt to resolve the matter informally through conciliation.
6. If the student requests in writing a formal grievance process, the grievance officer will transfer the record to the superintendent or his/her designee for formal resolution within 7 days of completing the investigation, and so notify the parties by certified mail.
7. After reviewing the record made by the grievance officer, the superintendent or designee may gather additional evidence necessary to decide the case. Within 14 days of receiving the record, the superintendent or his/her designee will announce any sanctions or other action deemed appropriate, including recommendations to the Board for disciplinary or other action.
8. Whether or not a formal grievance was filed, the district will take all steps necessary to end the harassment, to make the victim whole by restoring lost educational opportunities, to prevent harassment from recurring and to prevent retaliation against anyone who reports sexual harassment or participated in a harassment investigation.
9. Parties, including the parents/guardians of all students involved, will be notified by the superintendent or his/her designee of the final outcome of the investigation and all steps taken by the district.
10. At any time, the student making a report of sexual harassment may request an end to the informal process and begin the formal grievance process by indicating their desire in writing to the grievance officer.

## **RESTORATIVE PRACTICE**

Restorative Practice (RP) is a social science that works to strengthen relationships between individuals as well as the community. It encourages students to repair the relationships by repairing the harm they may have caused. At Ellicott Middle School, Restorative Practices will be used, including Restorative Circles and Formal Conferencing, to build community and positivity within the schools. Use of circles and formal conferences will: proactively lower discipline referral rates, increase instructional time by lowering classroom disruptions and increase positive school climate.

## **DISCIPLINE PROCEDURES**

The following discipline procedures will be followed for behaviors that are disruptive to classroom instruction/learning and/or safety.

### **1<sup>st</sup> Occurrence**

First occurrence of behavior that has become a disruption or is in violation of the Student Code of Conduct will result in a student/teacher conference about the behavior.

### **2<sup>nd</sup> Occurrence**

Second occurrence of behavior that has become a disruption or is in violation of the Student Code of Conduct will result in student/teacher conference about the behavior and parent contact by the teacher.

### **3<sup>rd</sup> Occurrence**

Third occurrence of behavior that has become a disruption or is in violation of the Student Code of Conduct will result in parent contact by the teacher and a teacher detention or discipline request to the Dean of Students.

### **4<sup>th</sup> Occurrence**

Fourth occurrence of behavior that has become a disruption or is in violation of the Student Code of Conduct may result in parent contact by the teacher and a teacher detention or discipline request to the Dean of Students and a conference with the Counselor. Student may be placed on a behavior plan.

### **5<sup>th</sup> Occurrence**

Fifth occurrence of behavior that has become a disruption or is in violation of the Student Code of Conduct may result in parent contact by the teacher, a teacher detention or discipline request to the Dean of Students, a conference with the Counselor, and a referral to the Principal.

## **Lunch Detention**

Detentions will be used as an intervention to prevent negative behaviors that impact the learning environment. Examples of such behaviors include but are not limited to, tardies, unprepared to class, disrespect, horseplay, violation of building procedures (Planners), or other inappropriate behaviors.

## **In-School Suspension**

When, in the opinion of a school administrator, a student's behavior warrants disciplinary action, an In-School Suspension may be assigned. This suspension will be assigned either for same day action or the next school day. In-School Suspensions will be served during the hours of 7:55 a.m. to 4:00 p.m. Any suspension that is not fully served will result in a reassignment of the suspension and serving of the full

suspension at the next available date. Work completed during In-School Suspension may be turned in for credit.

### **Out-of-School Suspension**

When in the opinion of a school administrator a student's behavior warrants suspension from school, the student may be assigned up to five days out-of-school suspension. As an alternative to suspension, a student may remain in school with the consent of the administrator and teacher(s) if his/her parent/guardian attends class with the student for a period of time to be specified by the building administration. Work completed during Out-of-School Suspension may be turned in for credit.

**Note: Any suspension that is not fully served will result in a reassignment of the suspension and serving of the full suspension at the next available date.**

A student who has received a second suspension during a school year may be required to enter into a Behavior Contract. A student who is suspended three times during the school year for disrupting the school environment shall be considered habitually disruptive and may be recommended for expulsion from the Ellicott School District. Parents will receive notice of each suspension that will be included in the process of determining a student to be habitually disruptive

### **Expulsion**

When, in the opinion of the building principal, a student's unacceptable behavior warrants expulsion from Ellicott School District 22, the student will be notified and afforded due process in accordance with state law. Student expulsions will typically be for a period of 12 calendar months (not a school year). Depending on the severity of the offense, students may be afforded an opportunity to meet specified requirements and return to school on a conditional basis prior to the end date of the expulsion. Violation of these conditions will result either in immediate reinstatement of the original expulsion or separate disciplinary actions based on the offense. Work completed during Expulsion may be turned in for credit.

Upon request of a student's parent or guardian, the school district, in accordance with law, provide educational services deemed appropriate by school district officials during the time of expulsion.

## **ATHLETICS and ELIGIBILITY**

### **Interscholastic Athletics**

The Ellicott School District provides opportunities for both young men and women to participate in competitive interscholastic athletics. Participation is neither required nor is it part of the basic instructional program. Policy JJI more clearly identifies the purposes and guidelines of the district athletic program as identified by the Board of Education.

Every student participating in Interscholastic Athletics is provided with a Student Athlete Handbook. These handbooks outline the rules, policies and expectations set forth by the middle school and the Board of Education. Students and parent must read and agree to abide by the policies established by the district. Violation of the policies can result in suspension from athletic teams. Students are governed by all requirements set forth by the district, the Ellicott Board of Education and the Colorado High School Activities Association.

### **Eligibility**

In accordance with Colorado High School Activities Association (CHSAA) guidelines, a weekly eligibility check will be completed for all students. Ellicott School District 22 policy dictates that a

student failing (F) any class or receiving **two** or more near-failing (D) grades will not be eligible for activities during the eligibility period. If the student is able to bring up any grades that caused him/her to be ineligible, prior to the event, the student may be deemed eligible with teacher signature and approval of the Assistant Activities Director and/or building administrators.

Students athletes are ambassadors of Ellicott Middle School. As such, if there are major behavioral referral/suspensions during a sports season, the administration reserves the right to suspend a students from a playing time/game(s).

### **Sportsmanship**

At each and every contest or event, Ellicott School District 22 recognizes the importance of good sportsmanship and asks that all spectators, coaches, and participants display a common respect for each other and the contest's officials. District officials believe that everyone should channel their energy toward encouragement and positive support for all involved and that good sportsmanship leads to well-rounded student athletes.

**Any individual in violation of district sportsmanship expectations will be asked to leave the contest or event. A meeting must be scheduled with the Athletic Director in order to receive recommendation for admittance to any future event(s).**

## **SCHOOL TRANSPORTATION**

### **Student Conduct on Buses**

The privilege of riding a school bus is contingent upon a student's good behavior and observance of the student code of conduct and established regulations for student conduct both at bus stops and on-board buses.

The driver of a school bus shall be responsible for safety of the students on the bus, both during the ride and while students are entering or leaving the vehicle. Therefore, it is the bus driver's duty to notify the supervisor of transportation and the principal of the school involved if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to parents/guardians, the principal may withhold from the student the privilege of riding the school bus. The student also may be denied admission to school, suspended or expelled, in accordance with established policies including discipline of habitually disruptive students, for flagrant violation of school bus rider conduct regulations or conduct detrimental to the safe operation of the bus.

### **SCHOOL BUS RULES AND REGULATIONS JICC**

The information contained in this document is provided to students and parents so that all are aware of the rules and regulations affecting your child(ren) while he / she is riding school district transportation. The Ellicott School District is quite proud of its bus drivers and the quality of student transportation services they provide. However, it is important for everyone to know and understand that transportation to school is not a legal responsibility of the school district. It is, rather, a service provided to district-resident students at the expense of the taxpayers of the district, so it is expected that this privilege will be appreciated by those benefiting from it. The district is committed to transporting all eligible students; however, willful violation of the enclosed school transportation rules by any student can be sufficient cause for a student to be denied school district transportation. To avoid this unfortunate situation, please take a few minutes to review and stress the importance of these rules with you child(ren).

### Safety Statement

Safety is the primary concern of the Ellicott School District 22 Transportation Department. When an incident occurs that could distract a driver's attention from the road, the safety of each student, the driver, and others on the road is jeopardized. The rules of conduct established for students riding a bus minimize the risk of harm or injury to them and all others.

In the event of any emergency, students are to remain in the bus until otherwise instructed by the driver or emergency response personnel.

### Consequences for Rule Infractions

Bus drivers have the authority to recommend suspending the riding privileges of any students who they feel are in violation of the rules of conduct. When a driver recommends suspension to the director of transportation, the director shall refer the matter and recommendation to the building principal. The period of suspension will vary with the nature of the infraction, but will range from 2 days to 1 full calendar year. Parents will be notified before the suspension starts so that they can arrange alternate transportation and ensure that they remain in compliance with Colorado attendance laws.
